Subject: The Microsoft Monoply

To Whom It May Concern

I must protest your you action in regards to the "Guilty" verdict handed down to Microsoft.

It seems that your view of guilty means that Microsoft gets government help to increase their monopoly, not losen it.

What gives?

Worse than doing nothing in regards of their business habits, you have actually gone out of your way to injure the same companies that Microsoft was trying to drive out of business.

You need to adjust your view of right and wrong.

Sincerely,
Bruce Worthel
